Company Instruction

Striving for Continued Technical Innovation,
Dongwoo Fine-Chem is at the Center of the Korean IT industry
A GLOBAL COMPANY in Electronic and Chemical Materials in the Display Business Area.

Dongwoo Fine-Chem has original technologies for polarizing film and color filters, which are necessary materials for LCD and OLED.
It also has key technologies for touch sensors, high-purity process chemicals, and new materials. With these technologies, Dongwoo Fine-Chem hopes to be an instrument for a brighter future.

Dongwoo Fine-Chem is a subsidiary of Sumitomo Chemical Group which is a global chemical company.

Dongwoo Fine-Chem's sales have reached two trillion Korean Won and continues to grow as a global leader in the information and electronic materials area.

Through continued systematic investment in R&D and facilities, Dongwoo Fine-Chem provides highest quality products and service.

With management based on ethical standard and social contribution which are its founding mission, Dongwoo Fine-Chem wants to be the best partner in the industry.
